RE: CERTIFICATE OF CONFORMANCE

This is to certify that all Ohaus scales and balances are calibrated by the manufacturer and checked to ensure that it conformed to the specifications as outlined in our catalogs and instruction manuals at the time the unit left the factory. Local environment, e.g., gravitation, may influence the calibration upon receipt by the end user. Calibration (refer to the Instruction Manual) should be verified in the field before the first use of the scale/balance.

Sincerely,

OHAUS Corporation
