RUBBER DOOR SWEEP

1-800-295-5510
uline.com

Para Español, vea páginas 3-4.
Pour le français, consulter les pages 5-6.

TOOLS NEEDED

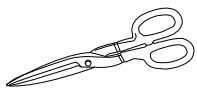

Electric Drill

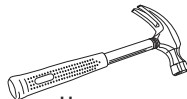

7/64" Drill Bit

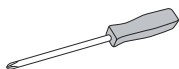

Phillips Drill Bit

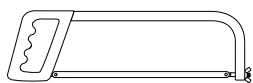

Scissors

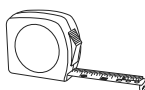

Hammer

Phillips Screwdriver

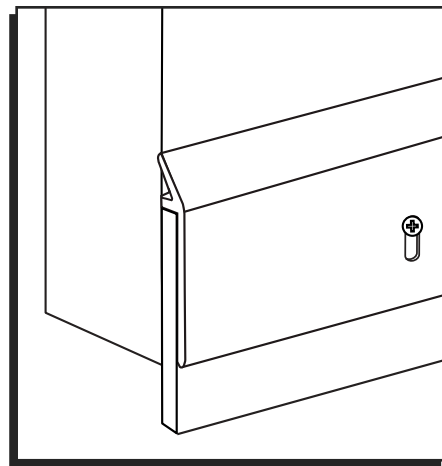

Hacksaw

Tape Measure

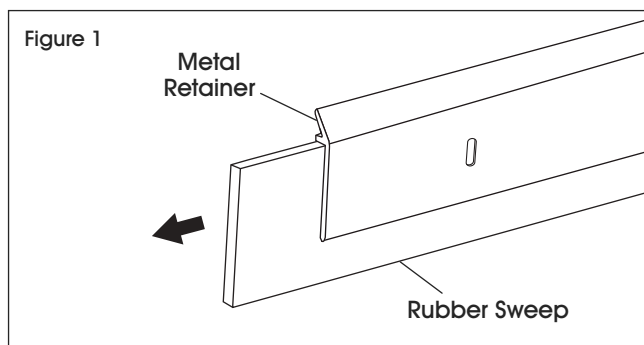

Pencil

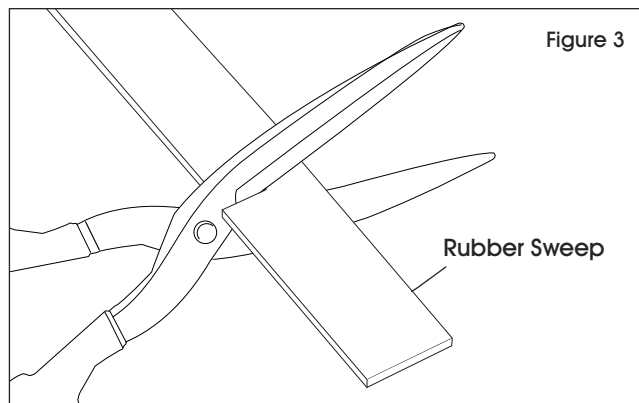

INSTALLATION

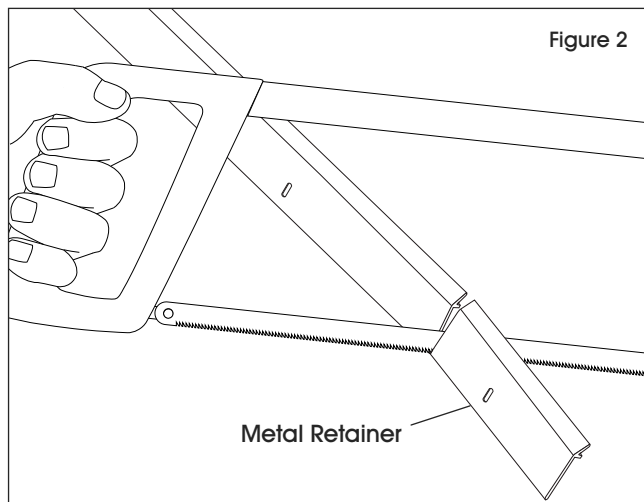

1. Remove rubber sweep from metal retainer. (See Figure 1)

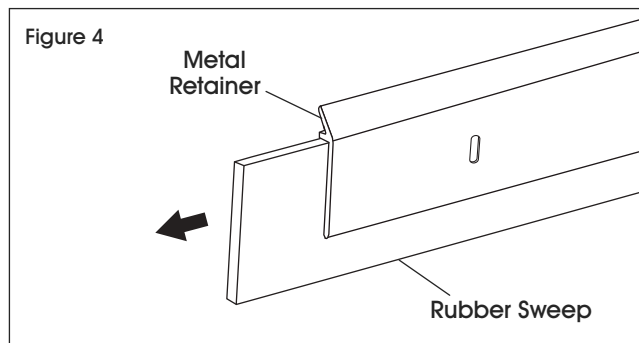

4. Cut the rubber sweep to length using a pair of scissors. (See Figure 3)

2. Measure the door width.
3. Cut the metal retainer to proper length using a hacksaw. (See Figure 2)

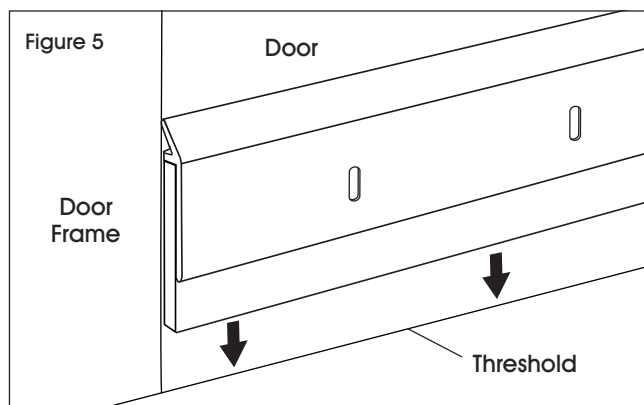

5. Replace rubber sweep in metal retainer. (See Figure 4)

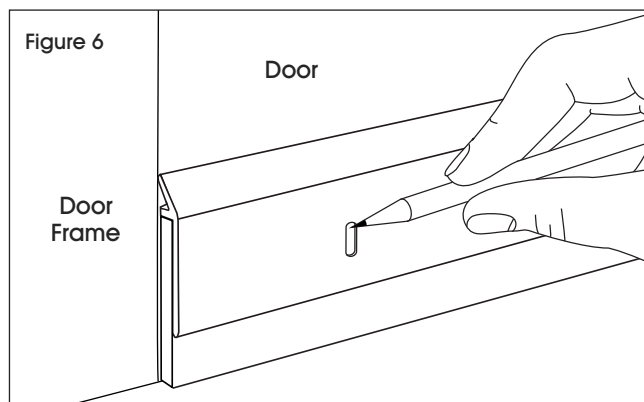

INSTALLATION CONTINUED

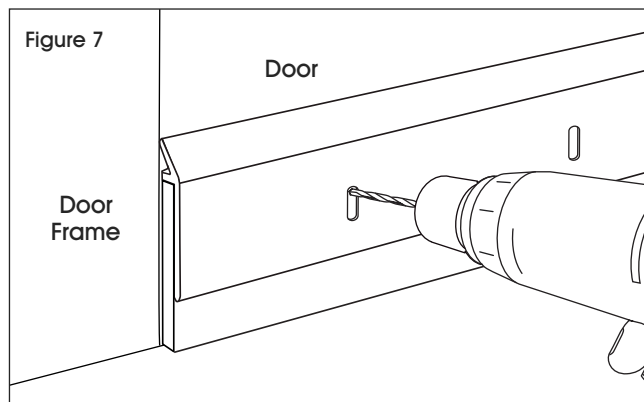

6. Close door. Hold sweep at bottom of door. Tap down until contact is made between the sweep and threshold. (See Figure 5)

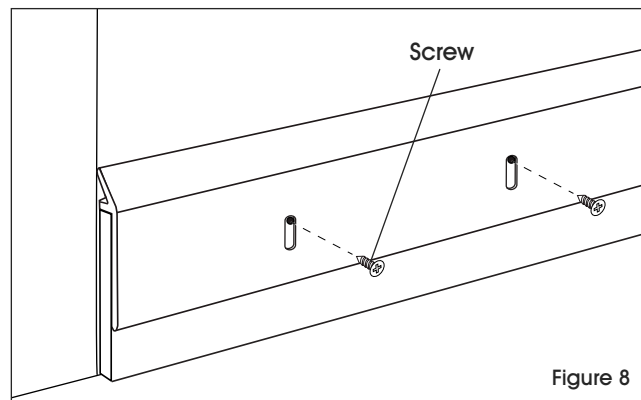

7. Mark screw holes with pencil. (See Figure 6)

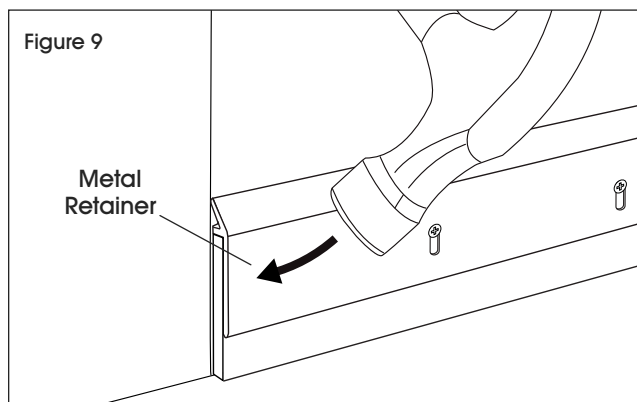

8. Drill pilot holes for screws through rubber sweep and into door using a 7/64" drill bit. (See Figure 7)

9. Install with screws provided. (See Figure 8)

10. Tap the bottom end of each metal retainer with a hammer to secure the rubber sweep from moving. (See Figure 9)

11. Adjust position so sweep does not impede proper closing and latching of door.

GUARDAPOLVOS – CAUCHO

800-295-5510
uline.mx

HERRAMIENTAS NECESARIAS

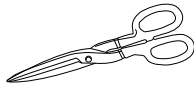

Taladro Eléctrico

Broca de 7/64"

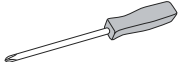

Broca de Cruz

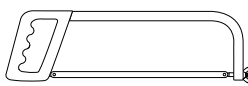

Tijeras

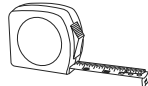

Martillo

Desarmador de Cruz

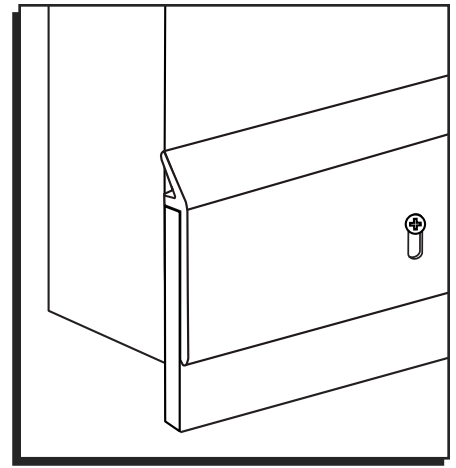

Sierra de Arco

Cinta de Medir

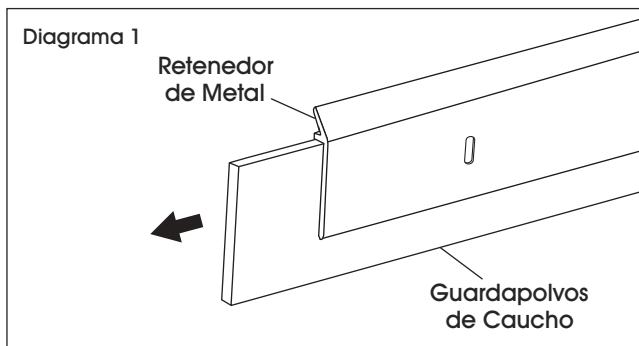

Lápiz

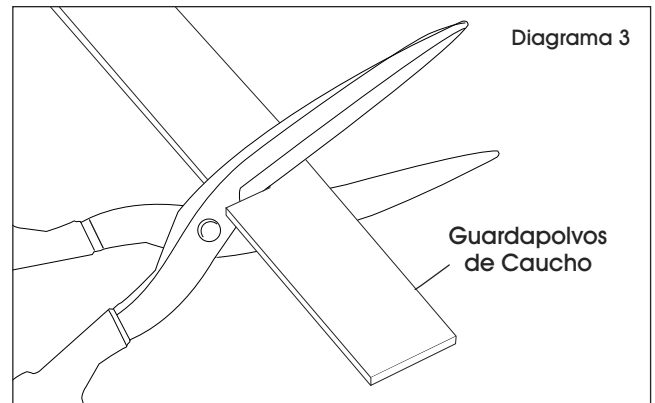

INSTALACIÓN

1. Retire el guardapolvos de caucho del retenedor de metal. (Vea Diagrama 1)

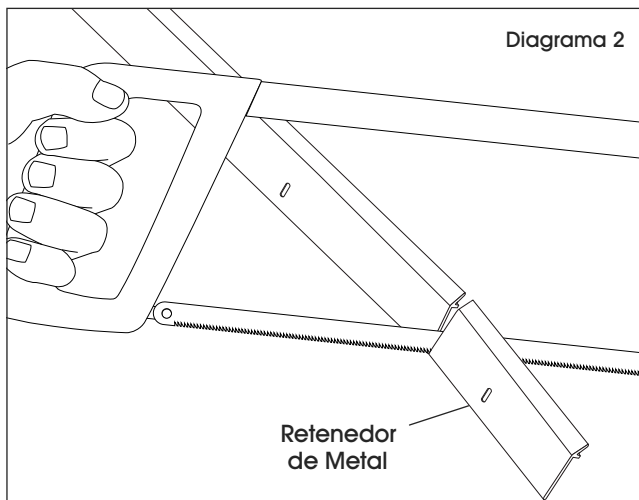

4. Corte el guardapolvos de caucho al largo deseado con un par de tijeras. (Vea Diagrama 3)

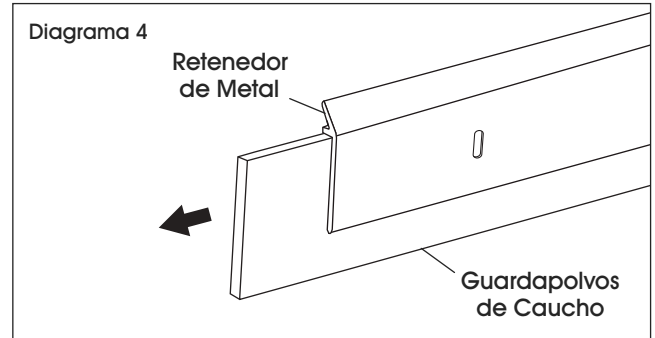

2. Mida el ancho de la puerta.

3. Corte el retenedor de metal al largo adecuado utilizando una sierra de arco. (Vea Diagrama 2)

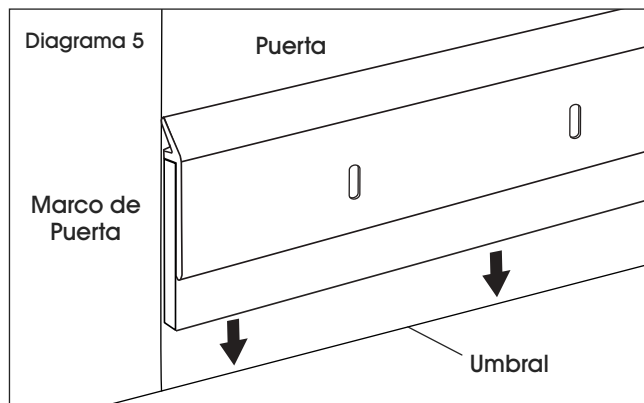

5. Reemplace el guardapolvos de caucho en el retenedor de metal. (Vea Diagrama 4)

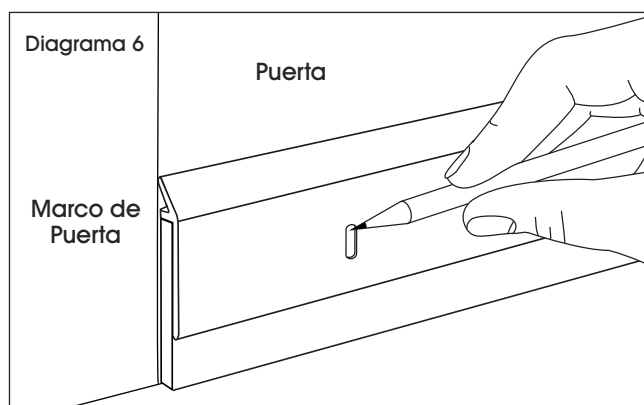

CONTINUACIÓN DE INSTALACIÓN

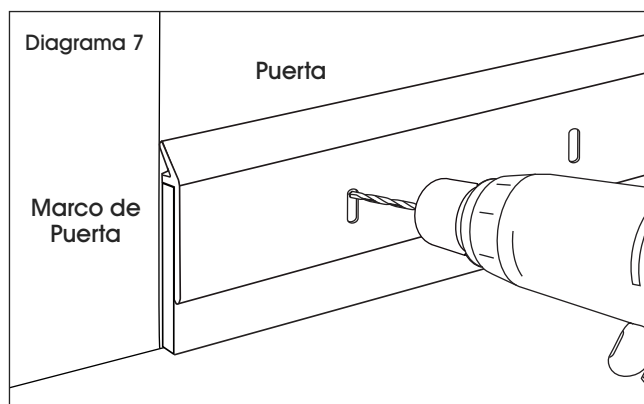

6. Cierre la puerta. Sostenga el guardapolvos en la parte inferior de la puerta. Golpee ligeramente hasta que haya contacto entre el guardapolvo y el umbral. (Vea Diagrama 5)

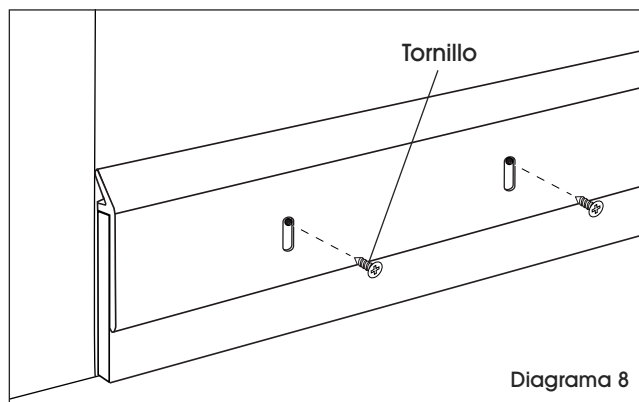

7. Marque la ubicación de los orificios para tornillo con lápiz. (Vea Diagrama 6)

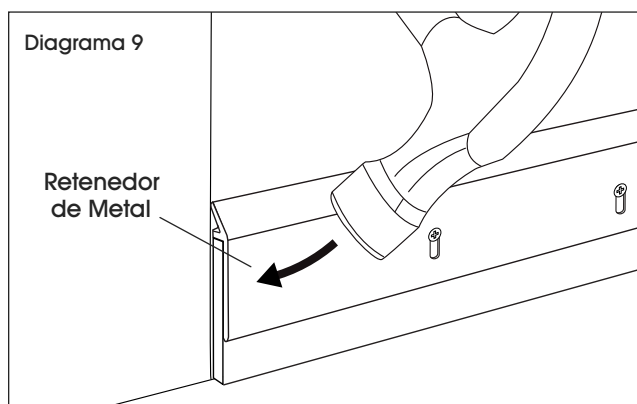

8. Perfore orificios guía a través del guardapolvos de caucho y en la puerta utilizando una broca de 7/64". (Vea Diagrama 7)

9. Instale con los tornillos incluidos. (Vea Diagrama 8)

10. Golpee ligeramente con el martillo el extremo inferior del retenedor de metal para prevenir que el guardapolvos se mueva. (Vea Diagrama 9)

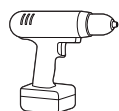

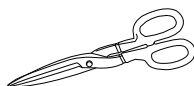

11. Ajuste la posición de modo que el guardapolvos no impida cerrar la puerta o usar el pestillo.

COUPE-FROID EN CAOUTCHOUC

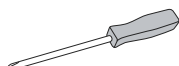

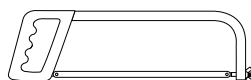

OUTILS REQUIS

Perceuse
électriqueMèche de
perceuse de
7/64 poEmbout de vissage
cruciforme

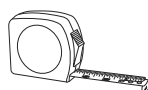

Ciseaux

Marteau

Tournevis
cruciforme

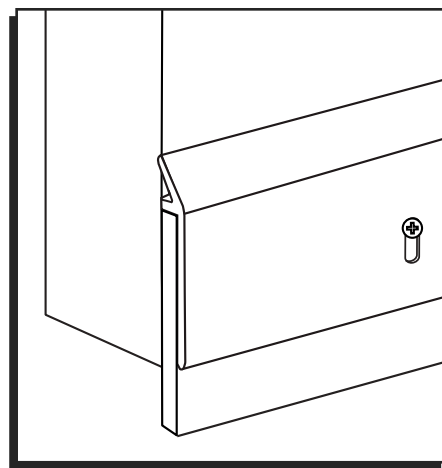

Scie à métaux

Ruban à mesurer

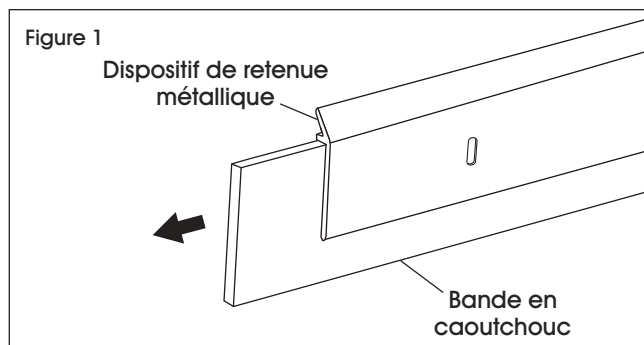

Crayon

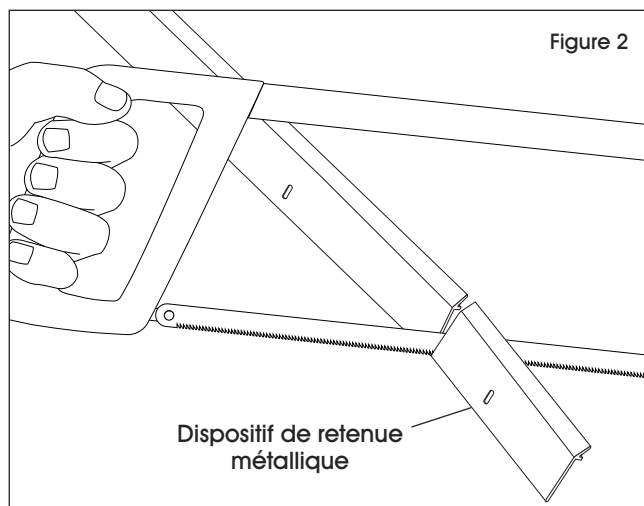

INSTALLATION

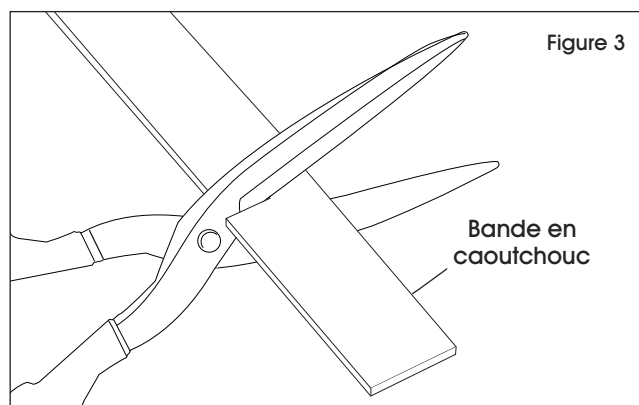

1. Retirez la bande en caoutchouc du dispositif de retenue métallique. (Voir Figure 1)

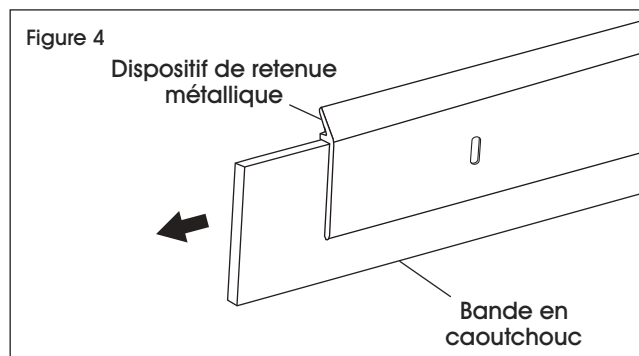

2. Mesurez la largeur de la porte.
3. Coupez le dispositif de retenue métallique à la bonne longueur à l'aide d'une scie à métaux. (Voir Figure 2)

4. Coupez la bande de caoutchouc à la longueur voulue à l'aide d'une paire de ciseaux. (Voir Figure 3)

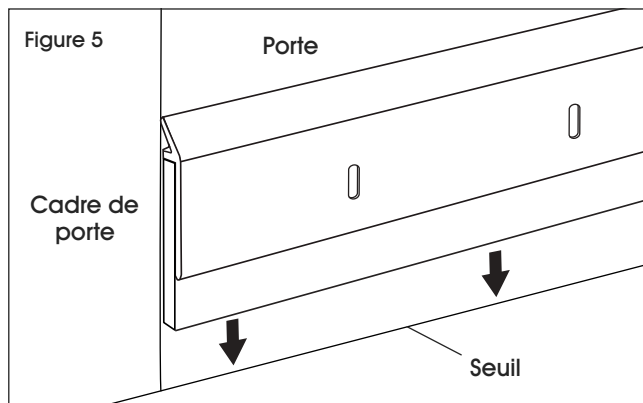

5. Remplacez la bande en caoutchouc dans le dispositif de retenue métallique. (Voir Figure 4)

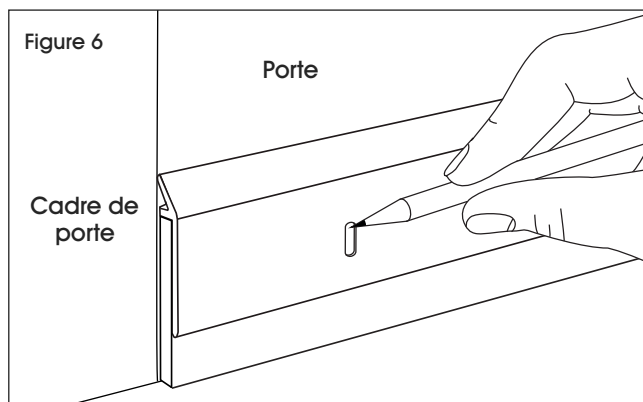

INSTALLATION SUITE

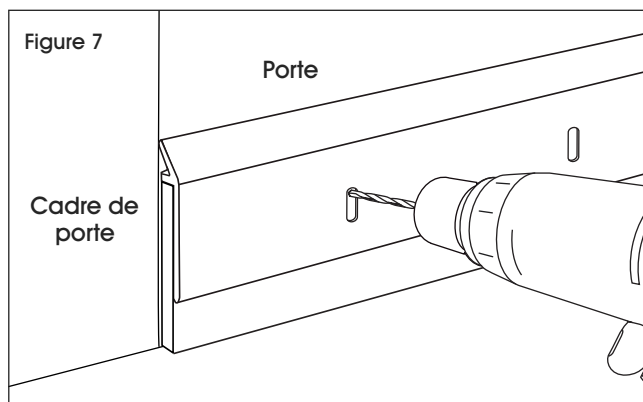

6. Fermez la porte. Tenez la bande au bas de la porte. Tapotez-la vers le bas jusqu'à ce qu'il y ait contact entre la bande et le seuil. (Voir Figure 5)

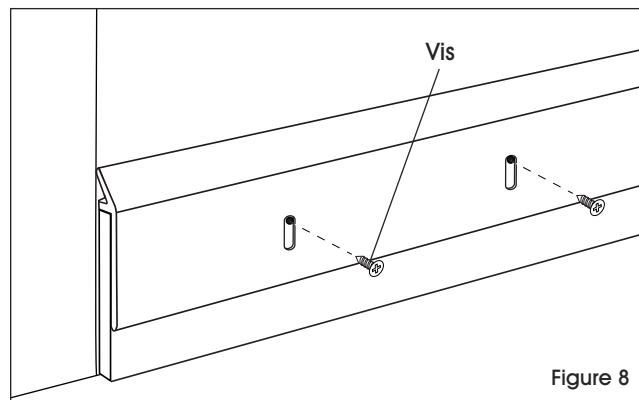

7. Marquez les trous de vis au crayon. (Voir Figure 6)

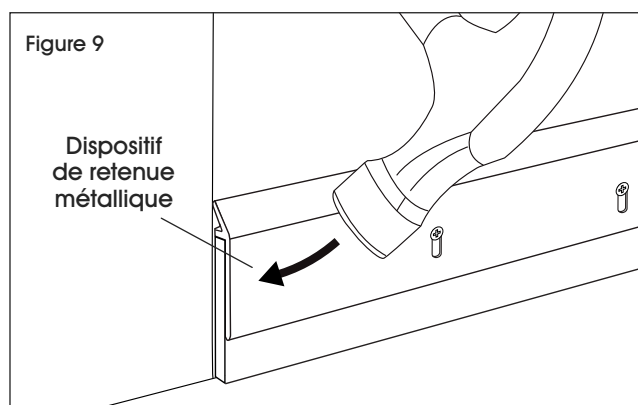

8. Percez des avant-trous pour les vis à travers la bande en caoutchouc et dans la porte à l'aide d'une mèche de perceuse de 7/64 po. (Voir Figure 7)

9. Installez le tout avec les vis fournies. (Voir Figure 8)

10. Tapez sur l'extrémité inférieure de chaque dispositif de retenue métallique à l'aide d'un marteau pour empêcher la bande en caoutchouc de bouger. (Voir Figure 9)

11. Réglez la position de manière à ce que la bande n'empêche pas la fermeture et le verrouillage adéquats de la porte.
