SIDE WALLS FOR CANOPIES

1-800-295-5510
uline.com

ASSEMBLY

1. Attach canopy top to frame. Refer to instructions provided with canopy. (See Figure 1)

2. Before raising canopy to extended height, fold up two adjacent corners of canopy top to reveal inside perimeter Velcro® strip. (See Figure 2)

3. Holding side wall, fold top edge of wall so Velcro® aligns with Velcro® strip sewn to canopy top. Attach Velcro® strip along top edge of canopy top, aligning zipper to outside corner of leg frame. Repeat this step until all walls are attached. (See Figure 3)

4. Attach side wall to frame with clips on top side of wall. (See Figure 4)

5. Secure Velcro® strips around each corresponding leg frame and zip walls together at each corner. (See Figure 5)

 **NOTE:** 5 x 5', 10 x 10' and 10 x 15' have one zippered wall for easy entry and exit. (See Figure 6)

 **NOTE:** 10 x 20' has three zippered walls for easy entry and exit.

**PAREDES LATERALES
PARA CARPAS****ENSAMBLE**

1. Fije la cubierta para carpa al armazón. Vea las instrucciones incluidas con la carpa. (Vea Diagrama 1)

2. Antes de levantar la carpa a la altura extendida, doble dos esquinas adyacentes de la cubierta para carpa para revelar la tira de Velcro® del perímetro interior. (Vea Diagrama 2)

3. Sosteniendo la pared lateral, doble el borde superior de la pared de modo que el Velcro® se alinee con la tira de Velcro® cosida a la cubierta para carpa. Fije la tira de Velcro® a lo largo del borde superior de la cubierta para carpa alineando el cierre con la esquina exterior del armazón de la pata. Repita este paso hasta fijar todas las paredes. (Vea Diagrama 3)

4. Fije la pared lateral al armazón con los clips en el lado superior de la pared. (Vea Diagrama 4)

5. Asegure las tiras de Velcro® alrededor de cada armazón de pata correspondiente y cierre las paredes juntas en cada esquina. (Vea Diagrama 5)

 **NOTA:** 5 x 5', 10 x 10' y 10 x 15' cuentan con una pared con cierre para entrar y salir fácilmente. (Vea Diagrama 6)

 **NOTA:** 10 x 20' cuentan con tres paredes con cierre para entrar y salir fácilmente.

**ASSEMBLAGE**

1. Fixez le toit de l'abri-soleil à la structure. Reportez-vous aux instructions fournies avec l'abri-soleil. (Voir Figure 1)

2. Avant de relever l'abri-soleil à sa hauteur maximale, repliez deux coins adjacents du toit de l'abri-soleil pour révéler la bande Velcro^{MD} du périmètre intérieur. (Voir Figure 2)

3. En tenant la paroi latérale, pliez le bord supérieur de la paroi pour que le Velcro^{MD} s'aligne avec la bande Velcro^{MD} cousue sur le toit de l'abri-soleil. Fixez la bande Velcro^{MD} le long du bord supérieur du toit de l'abri-soleil, en alignant la fermeture à glissière sur le coin extérieur du pied de la structure. Répétez cette étape jusqu'à ce que toutes les parois soient fixées. (Voir Figure 3)

4. Fixez la paroi latérale à la structure avec des attaches sur le côté supérieur de la paroi. (Voir Figure 4)

5. Fixez les bandes Velcro^{MD} autour de chaque pied de la structure correspondant et fermez les parois à l'aide des fermetures à glissière à chaque coin. (Voir Figure 5)

 **REMARQUE :** Les modèles de 5 x 5 pi, 10 x 10 pi et 10 x 15 pi ont une paroi à fermeture à glissière pour faciliter l'entrée et la sortie. (Voir Figure 6)

 **REMARQUE :** Le modèle de 10 x 20 pi a trois parois à fermeture à glissière pour faciliter l'entrée et la sortie.
