

**ULINE** H-5175

**RUBBER CORNER GUARD**

1-800-295-5510

uline.com

Para Español, vea página 2.  
Pour le français, consulter la page 3.

## INSTALLATION

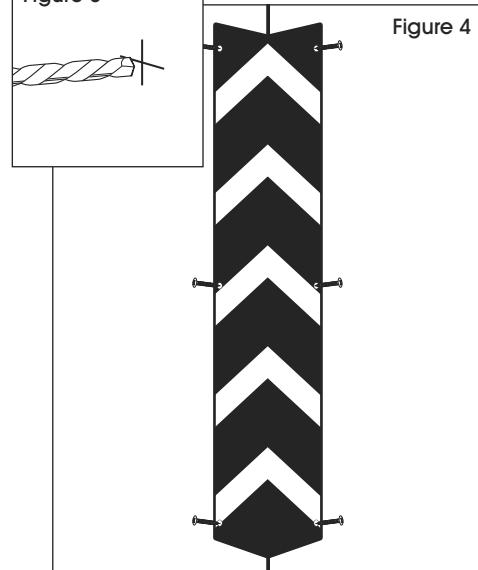

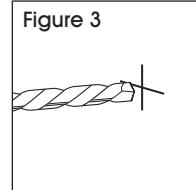

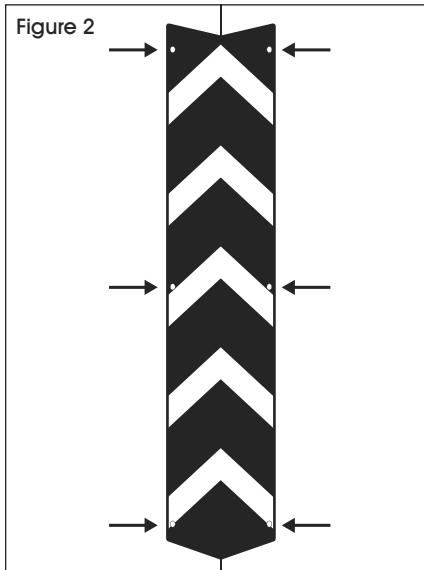

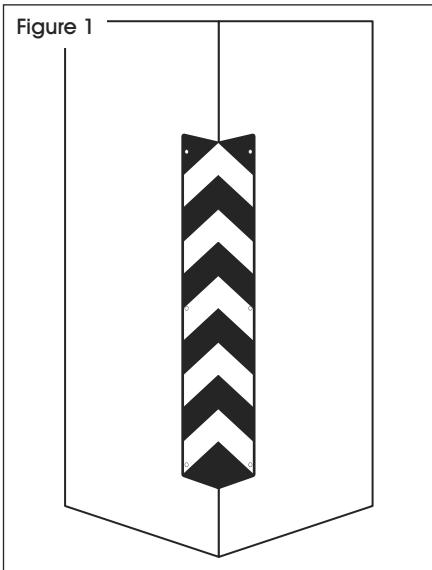

**NOTE:** Hardware not included.

1. Place the corner guard at the desired position.  
(See Figure 1)
2. Mark the screw hole positions (6) on the wall.  
(See Figure 2)
3. Remove the corner guard. Drill holes where marked,  
making sure the holes are clean of dust and debris.  
(See Figure 3)

4. Insert plastic anchors into the holes.

5. Place the corner guard back in the desired position,  
insert screws and tighten. (See Figure 4)

**PROTECTOR DE CAUCHO  
PARA ESQUINAS**

**800-295-5510**

**uline.mx**

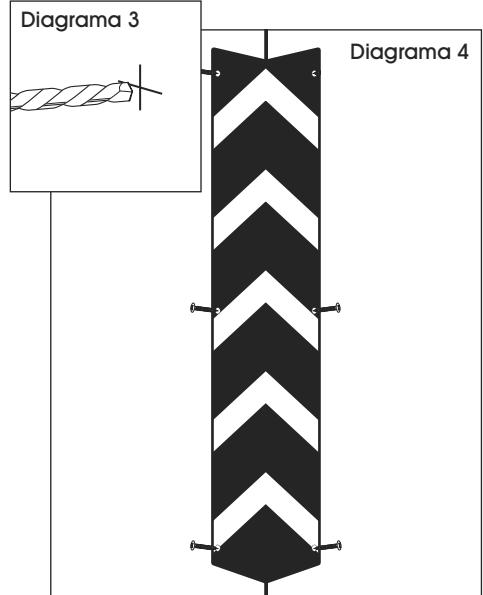

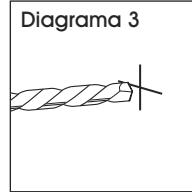

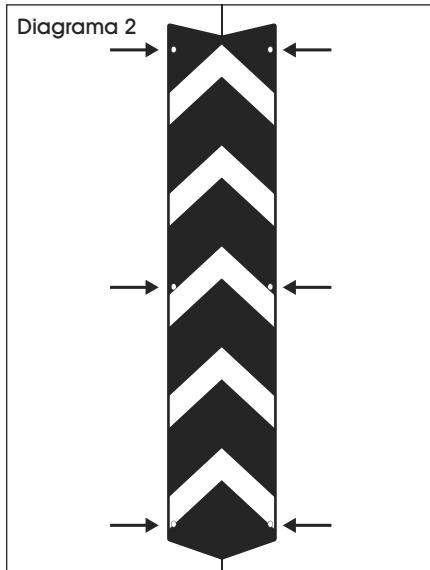

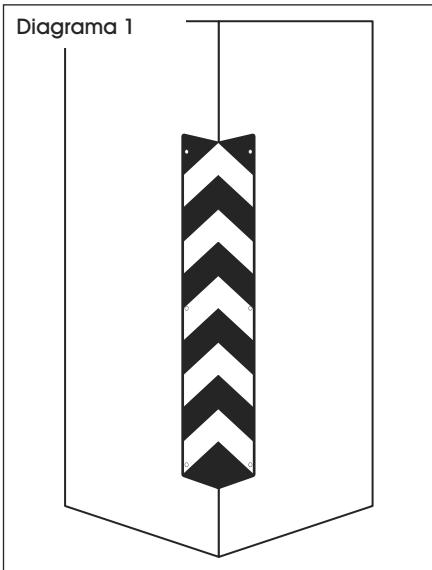

## **INSTALACIÓN**

**NOTA:** Accesorios de instalación no incluidos.

1. Coloque el protector de esquinas en el lugar deseado. (Vea Diagrama 1)
2. Marque en la pared las posiciones de los orificios para los tornillos (6). (Vea Diagrama 2)
3. Quite el protector de esquinas. Taladre orificios en los lugares marcados, asegurándose de que queden libres de polvo y suciedad. (Vea Diagrama 3)
4. Inserte anclajes de plástico en los orificios.
5. Coloque de nuevo el protector de esquinas en el lugar deseado, inserte los tornillos y apriételos. (Vea Diagrama 4)

**PROTECTEUR D'ANGLE  
EN CAOUTCHOUC**

1-800-295-5510

uline.ca

## INSTALLATION

**REMARQUE :** Quincaillerie non comprise.

1. Placez le protecteur d'angle dans la position souhaitée. (Voir Figure 1)
2. Marquez les (6) trous sur le mur aux emplacements où les vis seront insérées. (Voir Figure 2)
3. Retirez le protecteur d'angle. Percez les trous aux emplacements marqués en vous assurant que les trous sont exempts de poussières et de débris. (Voir Figure 3)

4. Insérez les dispositifs d'ancrage en plastique dans les trous.
5. Replacez le protecteur d'angle dans la position souhaitée, insérez les vis et serrez. (Voir Figure 4)
