

ULINE H-12111
PROTEAM® 6 QT.
CORDLESS VACUUM

A line drawing of a backpack-style scuba tank. The tank is rectangular with a shoulder strap on the right side and a handle on the left. A hose is connected to the top. Surrounding the tank are various accessories: a long, flexible hose with a connector, a shorter hose with a connector, a regulator, a BCD (Buoyancy Control Device) with a strap, and a small, rectangular object, possibly a weight or a small tank.
